EXPLANATORY NOTES

1. Local government authorities in New South Wales comprise Municipal, Shire, and County Councils. Twenty two of the municipalities have been proclaimed "cities". With the exception of the Sydney County Council, all councils are regulated by the Local Government Act, 1919, as amended.

2. The Statistics given in this publication are mainly financial, and include, inter alia, details of revenue, expenditure (from revenue and loans), capital indebtedness, property valuations, and rating. The comparative summary tables relate to 1969 (in a few instances, 1970) and earlier years, and the detailed statistics in respect of individual councils relate mainly to the year 1968.

3. The "Sydney Statistical Division", as used in this publication, comprises the areas listed under "Sydney Statistical Division" on pages 16 and 18; it differs from the Sydney Statistical Division as defined for general statistical purposes in that it excludes the whole of the City of Blue Mountains.

4. The area of the City of Sydney was reduced from 1st August, 1968 by the transfer of 3,906 acres to the newly created municipality of South Sydney and the municipalities of Leichhardt, Marrickville and Woollahra. The area transferred and the values of rateable property therein are shown below:-

Area Transferred						1968 Valuations of Rateable Property in the Area Transferred			
Municipality to which transferred						Acres	Unimproved Capital Value	Improved Capital Value	Assessed Annual Value
							\$ Thousand		
Leichhardt	550	14,025	48,168	3,918	
Marrickville	423	7,563	24,689	2,145	
South Sydney	2,603	104,671	243,584	19,796	
Woollahra	330	11,940	41,928	3,746	
Total	3,906	138,199	358,368	29,605	

5. Local Government activities are classified broadly as follows:-

- (a) Ordinary Services. This group includes roads and footpaths, sanitary and garbage services, parks and reserves, council properties, housing, health, and public services (for details see Tables 9 and 10). These services come within the scope of each council's general fund, or of special and local funds relating to works and services of a character similar to those covered by the general fund.
- (b) Trading, Water, and Sewerage Undertakings. These are for the supply of electricity, gas, water, and the provision of abattoirs and sewerage. Separate funds are kept for each undertaking.

6. Particulars of Ordinary Services expenditure, as shown in the summary tables, are not presented in the same form as in the statements of revenue accounts prepared by councils. The accounts of councils are composite in character and show in combination expenditure from both revenue and loans. In the summary tables, however, expenditure from each source is shown separately - expenditure from revenue in Tables 8, 10, and 11, and expenditure from loans in Tables 13 and 14. By such means, particulars of councils are shown in a form which is more commonly used by public authorities.

7. Ordinary Services expenditure as appearing in Tables 27 and 28 is in the same form as in councils' accounts, and therefore differs from totals shown in the summary tables, which have been adjusted as described above. Expenditure on such services as parks, baths, markets, and property, which has been capitalised, is not included in these tables, but is shown in total in Tables 31 and 32.

8. The revenue and expenditure of trading undertakings are shown on a "profit and loss" basis, the same form as in the accounts prepared by councils.

9. Information relating to the Metropolitan Water, Sewerage, and Drainage Board and the Hunter District Water Board is shown in Tables 54 to 62.

NO. 2. MUNICIPALITIES AND SHIRES: VALUATIONS OF RATEABLE PROPERTY 1965 to 1970

The Unimproved Capital Value is the amount for which the fee-simple estate in land could be sold under such reasonable conditions as a bona-fide seller would require, assuming that the actual improvement had not been made.

The Improved Capital Value is the amount for which the fee-simple estate of the land, with all improvements thereon could be sold.

The Assessed Annual Value is nine-tenths of the fair average annual rental of the land, with improvements thereon, but must not be less than five per cent of the improved capital value.
